Since 1948, Cee Kay Supply, Inc. has been serving customers as a supplier of specialty gases and services. We have specialty gases and gas equipment for all applications. Our dedicated Specialty Gas laboratory and Sales Department in St. Louis, MO are both dedicated to providing the gases and equipment you need for your specific application. Our goal is to be your primary source for gases and cryogenic needs. Whether you need regulators for your cylinders, or specific lab gases, we can meet your needs at a local level.

If there is a specific gas or gas mix that we do not stock, we'll find it and get it to you through our Purity Plus network. Purity Plus includes a network of 50 Independent distributors across the United States with the capability of providing specialty gases and gas equipment to customers across the country at affordable prices.

Accuracy

Purity Plus gases meet or exceed exacting standards established by the IWDC. Common standards have been established for specialty gas products with this new national brand: Purity Plus.

Integrity

Purity Plus gases are produced by local labs, certified by an independent consultant. Equipment, personnel, procedures & samples have been examined to verify that they can and do meet the requirements of the established standards.

Service

Not only do you get the quality of a national brand, but also the service of a reputable local company. Local distributors are more flexible and responsive than International Companies.

Cee Kay Supply, Inc has teamed up with our Cooperative (IWDC) to provide "Purity Plus" Specialty Gases. Purity Plus includes a network of 50 Independent distributors across the United States with the capability of providing specialty gases and equipment to customers across the country at an affordable price.

The implementation of Purity Plus gives Cee Kay the opportunity to provide rare and specific gas mixes and equipment in a timely and efficient manner through the partnership of other independent suppliers.
